## Summer 2007 Semester at Sea DVD ORDER FORM

Remember your 2007 Central-South America voyage with an International Film & Video "*Semester at Sea Voyage DVD.*" This superb 2-hour DVD will feature most of the exciting activities from all the ports-of-call as well as the diverse shipboard life as you sail from Ensenada, Mexico, down the Pacific coast to Central/S. America to study eight countries, and finally back to San Diego. At home, you'll be able to show friends and family this broadcast-quality program and relive exciting moments of your Semester at Sea world voyage. This will be one DVD you'll want to show many times. It's often been called the best souvenir of the voyage.

This program will be produced by our professional video producers, Aaron Hopps & Sara Robbin, who are sailing *with* you, shooting all new footage of your voyage. You'll see your new friends and probably yourself as you experience other cultures and countries. The program will also show highlights from the many shipboard activities during the voyage. The **Voyage DVD** features a fantastic soundtrack of music from all the countries. Also included are dozens of short sound bites and comments from people on the ship and in ports of call; great sound effects; and titles and graphics to help illustrate your travels. Please note this program is being made with professional television video equipment only, **not** home video camcorders!

The cost of the 2-hour DVD "**Regular**" version of the SAS Voyage DVD is \$ 99. The "**Personalized**" version is \$ 139. In the "Personalized" version, a **5 minute interview** will be shot of you out on deck, near the end of the voyage. This interview includes your comments about the voyage (you can include your friends' comments here too), in addition to any "*Thanks to ...*" dedications you have. This unique personalized segment (a "*time capsule*" to yourself and family) will be added at the end of the regular DVD.

What better way to remember this fantastic voyage with special people than with a professionally produced DVD? It's a great gift for yourself or for the family members that made this trip possible for you. Considering **90% of voyage participants order this DVD**, why not buy it right now. The DVD *can't* be purchased *after* the voyage. Hundreds have written to us saying this is "***The Best Souvenir of the Voyage.***"

(Please note you will not be able to make copies of the Voyage DVD, as your program will be treated with *Macrovision*, an anti-copying system. This is to protect our copyright, as you can understand. Your DVD will be sent in October 2007. Our DVDs will only play on DVD players manufactured from the year 2000 onward).
